

NOWITECH Offshore Wind Innovation Award 2016

Nominations for the NOWITECH Innovation Award 2016 are invited. The winner will be announced on NOWITECH Day 7th June in Trondheim.

Purpose

The NOWITECH Innovation Award is intended to stimulate and reward knowledge-based innovation and / or entrepreneurship within the field of offshore wind energy. The award will help to identify ideas with commercial potential.

About the award

The NOWITECH Innovation Award will be presented at the NOWITECH Innovation Day 7 June in Trondheim. The award consists of a diploma and a cash prize of NOK 10 000. The winner(s) will be selected by a committee of experts from industry and research. The rationale for the selection will be delivered during the ceremony and included on the diploma.

Who can be nominated

Candidates who are affiliated with any of the industry or research partners in NOWITECH can be nominated. Self-nomination is also encouraged. The committee will consider the proposals received.

The criteria for the assessment of candidates:

- Potential to reduce cost of energy from offshore wind farms
- Degree of novelty
- Commercial viability

Deadline

Please submit the nomination for the NOWITECH Innovation Award 2016 according to instructions at www.sintef.no/nowitechinnovation by 24 May.
